These certified rosters will then be available online to the Tournament Director at the next stage of Tournament competition. Teams that have qualified may alter their sanctioned roster from their first qualifying event any time except during play of any tournament, up to the beginning of their final event by up to 40% of the maximum roster limit of their respective age division, provided the total players on the roster does not exceed the maximum number of players allowed: ten (10) roster spots in Stan Musial, Connie Mack and Don Mattingly; nine (9) rosters spots in Mickey Mantle and Ken Griffey Jr and eight (8) roster spots in all other age divisions. TOURNAMENT BRACKETS AND BYES

RULE 211

- (a) AABC Tournaments must be completed in compliance with the approved AABC double-elimination bracket; deviations from the approved brackets are not permitted other than for pool play. The AABC approved method of pairings mandates that the Tournament be conducted on a true double-elimination basis. Following the first three (3) or four (4) rounds of a Tournament, pairings may need to be adjusted to comply with the following rules. All bracket pairings shall be made by the National Office or done at the pre-tournament coaches meeting.
- (b) Following the first three (3) or four (4) rounds when pairings have begun, where there is a bye in the schedule, all teams – undefeated and defeated – shall share in drawing for the bye except as provided below in (d). No team may receive a second bye until every other team alive shall have had a first bye. This will be adhered to even if it means two (2) teams must meet for the second time when there is a team alive they have not yet met. The bye has top priority over anything else and MUST be the first consideration. IT IS VITAL AND ESSENTIAL THAT THE BYE BE DETERMINED FIRST.

- (c) Winners will play winners and losers will play losers and no team will meet another team for the second time where there remains a different team left to play, UNLESS: it would violate (b) above. If there is only one possible group of pairings with the fewest number of teams meeting for the second time, then that group of pairings shall be used. If there is more than one equal possibility, the group of games involving once defeated teams will be selected by lot from those pairings with the fewest number of teams which must meet for the second time.
- (d) When there are only three (3) teams left in the Tournament and each has received an equal number of byes or no team has received a bye and one team has played the other two teams and the other two teams have not met, then the teams who have not met must play, and the other team will receive the bye in that round; or ii) one team has not met either of the other two teams, and the other two teams have met, then the team who has not played either of the other two teams will draw its opponent, and the other team will receive a bye in that round.

POOL PLAY

RULE 212

Pool play as outlined by the AABC may be used in National competition if requested and approved in writing by the National Office no later than June 15th of each year. In all cases, pool play must be followed by either single or double elimination. Official AABC rules must apply.

Ties after completed pool play shall be broken using the following order of determination: first, head-to-head competition; second, least total number of runs given up in games involving the tied teams; third, most runs scored in games involving the tied teams; and fourth, draw or flip. If there are more than two teams tied initially, after the first determining tie breaker, the remaining tied teams will start over with the first rule of the tie breaker.

QUALIFYING TOURNAMENTS

RULE 213

- (a) Qualifying tournaments may be played to determine teams advancing to Hub Area or National competition. A team that has won a qualifier (Regional/Area or National) may not participate in any other AABC Tournament of any kind other than the tournament for which it qualified.
- (b) Eligible entrants for Qualifying Tournaments include any team duly registered with the AABC as of the date of the qualifying tournament. All qualifying tournament must have a minimum of sixteen (16) teams entered unless approved by the National Office.

TERMINATED AND SUSPENDED GAMES

RULE 214

- (a) Other than in World Series Play, a game shall be legally completed after five (5) innings if the visiting team is ahead and after four and one-half (4 $\frac{1}{2}$) innings if the home team is ahead in Stan Musial, Connie Mack, Mickey Mantle, Ken Griffey Jr., Sandy Koufax, Nolan Ryan, Pee Wee Reese and Gil Hodges. In Willie Mays, Jackie Robinson and Roberto Clemente a game shall be legally completed after four (4) innings if the visiting team is ahead and after three and one-half (3 $\frac{1}{2}$) innings if the home team is ahead. In World Series, double elimination format (not in pool play), each game in the Stan Musial, Connie Mack, Don Mattingly, Mickey Mantle, Ken Griffey Jr, Sandy Koufax, Nolan Ryan, Pee Wee Reese, and Gil Hodges divisions must complete at least seven (7) innings or six and one half (6 $\frac{1}{2}$) innings (five [5] innings or four and one half [4 $\frac{1}{2}$] under the Mercy Rule) if the home team is ahead; each game in the World Series, double elimination format (not in pool play) for Willie Mays, Jackie Robinson and Roberto Clemente division, must complete six (6) innings or five and one half (5 $\frac{1}{2}$) innings (four [4] innings or three and one half [3 $\frac{1}{2}$] innings under the Mercy Rule) if the home team is ahead. In other words, all World Series games must complete the number of innings designated for their respective age divisions unless the Tournament Committee determines it necessary to shorten the games in order to complete the World Series.

RULE 215
